KPN IoT

Martin van den Berg

KPN IoT at a glance

Strategic goals

KPN IoT facts & figures

IoT awareness

- Co-founder of the IoT academy
- More than 300 awareness workshops, lots of IoT meet-ups
- Trained over 500 IoT developers

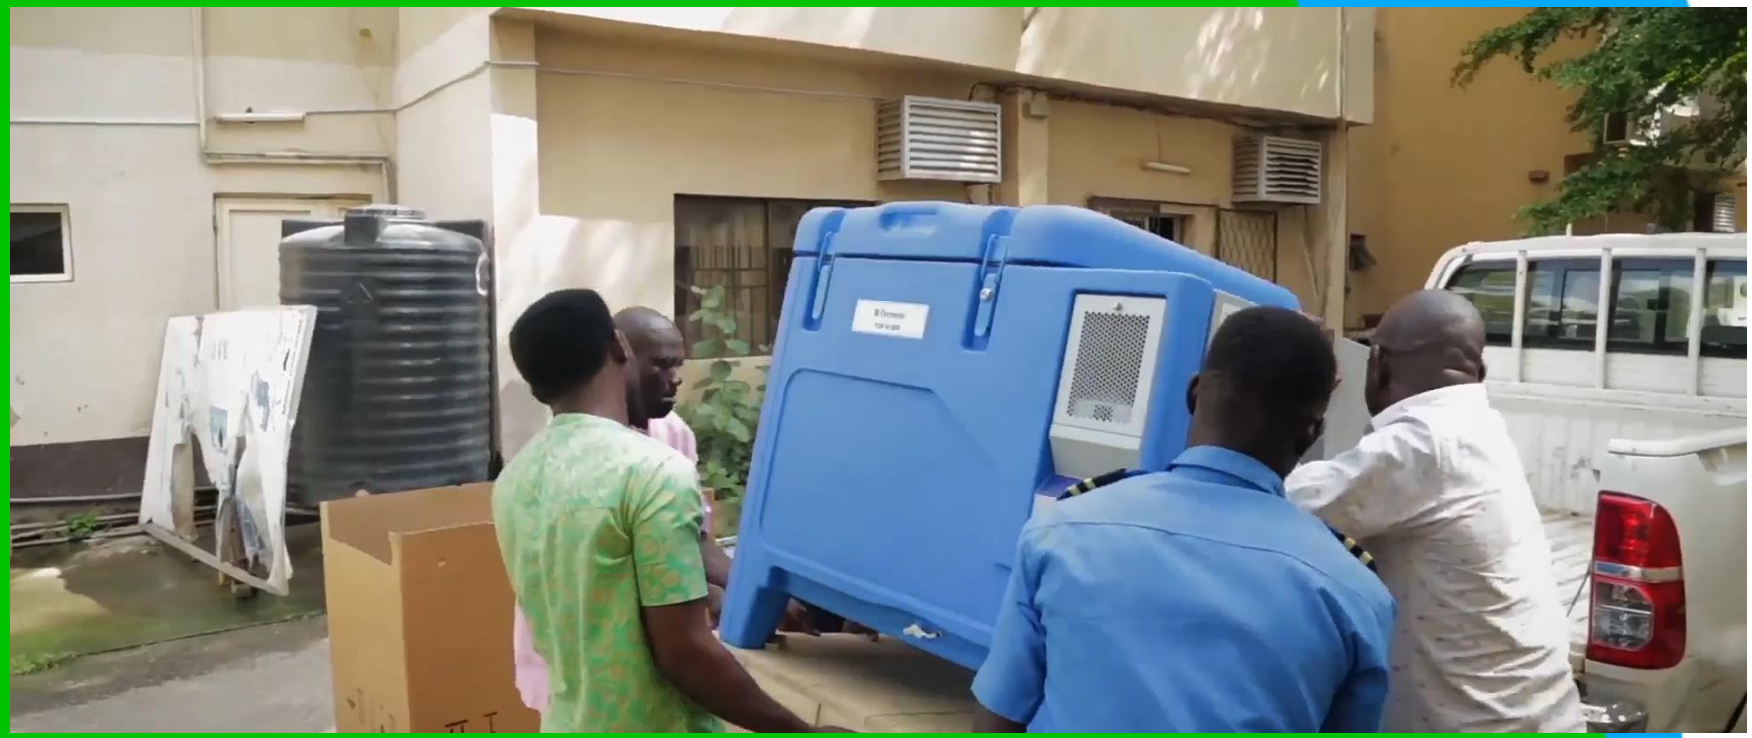
Share experience and provide learnings in implementing IoT

- 100 Employees dedicated to KPN IoT
- 2 Inhouse development teams
- >200 IoT Proof of Concepts developed

Offer state-of the art connectivity and IoT building blocks

- ~ 10 million connections, worldwide
- Major 5G network launch in 2020 (and LoRa and LTE-M in 2017)
- 2 Board memberships (LoRa Alliance & IoT World Alliance)
- 37+ NPS score on IoT service

Saving lives with a smart vaccine refrigerator

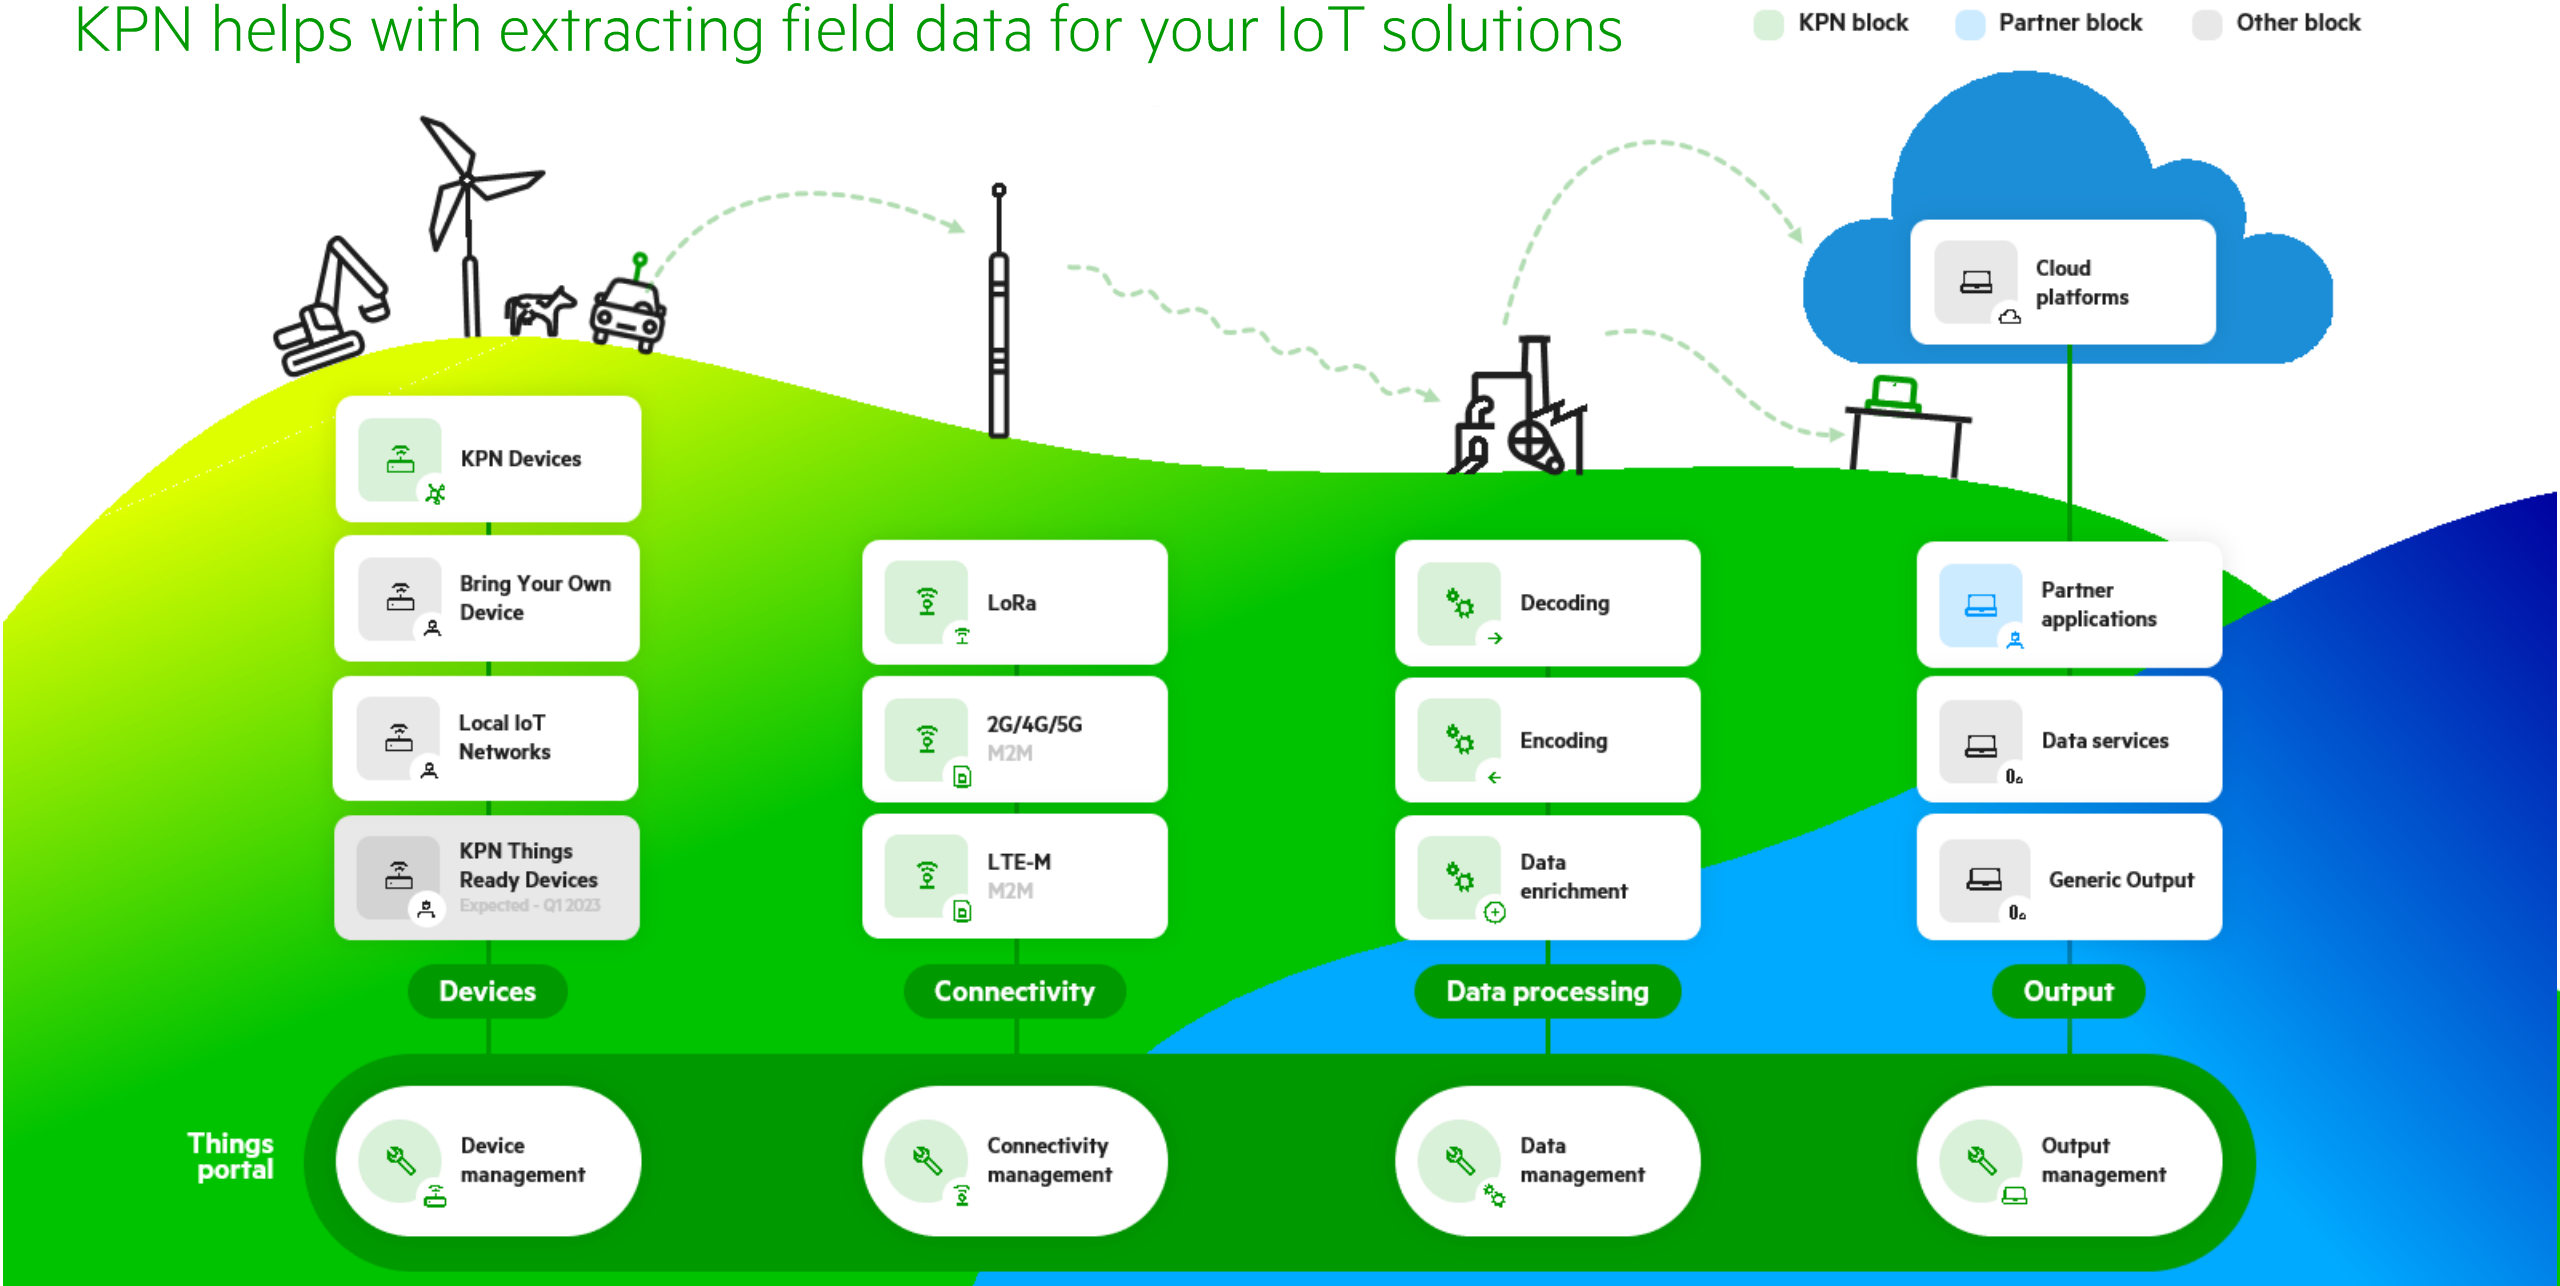


medical systems

kpn IoT

IoT solutions require expertise in multiple domains

KPN helps with extracting field data for your IoT solutions



ANWB
Theft recovery insurance

ANWB is the largest insurer of bicycles in The Netherlands. The rise of e-bike sales, as well as theft, raised the need for track and trace and recovery of stolen bicycles. In 2021 ANWB reached the 100.000th deployed bike-tracker.
With our solution, KPN services ANWB as well as the bike-recovery agency from start to finish.

IoT Solution

- Tailor-made low-power LoRaWAN hardware
- LoRaWAN connectivity and localization
- KPN Things connectivity-, data- and devicemanagement
- Dedicated web- and smartphone apps for asset management and bike recovery
